## Independent Auditors' Review Report

To the Board of Directors of Chailease Holding Company Limited:

### Introduction

We have reviewed the accompanying consolidated balance sheets of the Chailease Holding Company Limited (the "Company") and its subsidiaries (together referred to as the "Group") as of June 30, 2019 and 2018, the related consolidated statements of comprehensive income for the three months and the six months ended June 30, 2019 and 2018, as well as the changes in equity and cash flows for the six months ended June 30, 2019 and 2018, and notes to the consolidated financial statements, including a summary of significant accounting policies. The management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standards ("IASs") 34, "Interim Financial Reporting" endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China. Our responsibility is to express a conclusion on the consolidated financial statements based on our review.

### Scope of Review

Except as explained in the Basis for Qualified Conclusion paragraph, we conducted our reviews in accordance with Statement of Auditing Standards 65, "Review of Financial Information Performed by the Independent Auditor of the Entity". A review of the consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the generally accepted auditing standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### Basis for Qualified Conclusion

As stated in Note 4(b), the consolidated financial statements included the financial statements of certain non-significant subsidiaries, which were not reviewed by independent auditors. These financial statements reflect total assets amounting to \$82,679,526 thousand and \$67,948,673 thousand, constituting 19% and 19% of consolidated total assets at June 30, 2019 and 2018, respectively, total liabilities amounting to \$58,407,849 thousand and \$44,812,724 thousand, constituting 16% and 15% of consolidated total liabilities at June 30, 2019 and 2018, respectively, and total comprehensive income amounting to \$894,232 thousand, \$722,461 thousand, \$2,000,646 thousand and \$1,559,749 thousand, constituting 22%, 19%, 23% and 22% of consolidated total comprehensive income for the three months and six months ended June 30, 2019 and 2018, respectively.

Furthermore, as stated in Note 6(f), the other equity accounted investments of the Chailease Holding Company Limited and its subsidiaries in its investee companies of \$1,575,075 thousand and \$1,193,470 thousand at June 30, 2019 and 2018, respectively, and its equity in net gain on these investee companies of \$155,280 thousand, loss \$18,215 thousand, gain \$146,537 thousand and loss \$20,858 thousand for the three months and six months ended June 30, 2019 and 2018, respectively, were recognized solely on the financial statements prepared by these investee companies, but not reviewed by independent auditors.

### **Qualified Conclusion**

Except for the adjustments, if any, as might have been determined to be necessary had the financial statements of certain consolidated subsidiaries and equity accounted investee companies described in the Basis for Qualified Conclusion paragraph above been reviewed by independent auditors, based on our reviews, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Chailease Holding Company Limited and its subsidiaries as of June 30, 2019 and 2018, and of its consolidated financial performance for the three months and six months ended June 30, 2019 and 2018, and of its consolidated cash flows for the six months ended June 30, 2019 and 2018 in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and IASs 34, “Interim Financial Reporting” endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

### **Emphasis of Matter**

As stated in Note 3(a), the Group initially adopted the IFRS 16, “Leases” on January 1, 2019 and applied the modified retrospective approach, with no restatement of comparative period amounts. Our conclusion is not qualified in respect of this matter.

The engagement partners on the audit review resulting in this independent auditors’ review report are Shu-Min Hsu and Wan-Wan Lin.

**Notes to Consolidated Financial Statements**

**June 30, 2019 and 2018**

(Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)

**(1) Company history**

Chalease Holding Company Limited (the “Company”) is an investment holding company, which was founded on December 24, 2009 under the Company Act of Cayman Islands. The Company has been listed on the Main Board of the Taiwan Stock Exchange Corporation (TWSE) since December 13, 2011.

The Company and its subsidiaries ( “the Group”) were engaged primarily in providing various services of leasing and financing.

As of June 30, 2019 and 2018, the Company had outstanding common stock of \$12,895,146 and \$12,642,300 divided into 1,289,514,593 shares and 1,264,229,994 shares, respectively.

**(2) Approval date and procedures of the consolidated financial statements**

The consolidated financial statements were authorized for issuance by the Audit Committee and reported to Board of Directors on August 12, 2019.

**(3) New standards, amendments and interpretations adopted:**

- (a) The impact of the International Financial Reporting Standards (“IFRSs”) endorsed by the Financial Supervisory Commission, R.O.C. (“FSC”) which have already been adopted.

The following new standards, interpretations and amendments have been endorsed by the FSC and are effective for annual periods beginning on or after January 1, 2019.

<u>New, Revised or Amended Standards and Interpretations</u>	<u>Effective date per IASB</u>
IFRS 16 “Leases”	January 1, 2019
IFRIC 23 “Uncertainty over Income Tax Treatments”	January 1, 2019
Amendments to IFRS 9 “Prepayment features with negative compensation”	January 1, 2019
Amendments to IAS 19 “Plan Amendment, Curtailment or Settlement”	January 1, 2019
Amendments to IAS 28 “Long-term interests in associates and joint ventures”	January 1, 2019
Annual Improvements to IFRS Standards 2015–2017 Cycle	January 1, 2019

Except for the following items, the Group believes that the adoption of the above IFRSs would not have any material impact on its consolidated financial statements. The extent and impact of signification changes are as follows:

- (i) IFRS 16 “Leases”

IFRS 16 replaces the existing leases guidance, including IAS 17 Leases, IFRIC 4 Determining whether an Arrangement contains a Lease, SIC-15 Operating Leases – Incentives and SIC-27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease.

**(Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)**

The Group applied IFRS 16 using the modified retrospective approach, under which the cumulative effect of initial application is recognized in retained earnings on January 1, 2019. The details of the changes in accounting policies are disclosed below,

1) Definition of a lease

Previously, the Group determined at contract inception whether an arrangement is or contains a lease under IFRIC 4. Under IFRS 16, the Group assesses whether a contract is or contains a lease based on the definition of a lease, as explained in Note (4)(c).

On transition to IFRS 16, the Group elected to apply the practical expedient to grandfather the assessment of which transactions are leases. The Group applied IFRS 16 only to contracts that were previously identified as leases. Contracts that were not identified as leases under IAS 17 and IFRIC 4 were not reassessed for whether there is a lease. Therefore, the definition of a lease under IFRS 16 was applied only to contracts entered into or changed on or after January 1, 2019.

2) As a lessee

As a lessee, the Group previously classified leases as operating or finance leases based on its assessment of whether the lease transferred significantly all of the risks and rewards incidental to ownership of the underlying asset to the Group. Under IFRS 16, the Group recognizes right-of-use assets and lease liabilities for most leases – i.e. these leases are on-balance sheet.

The Group decided to apply recognition exemptions to short-term leases of building and leases of transportation equipment.

A. Leases classified as operating leases under IAS 17

At transition, lease liabilities were measured at the present value of the remaining lease payments, discounted at the Group's incremental borrowing rate as at January 1, 2019. Right-of-use assets are measured at either:

- a. their carrying amount as if IFRS 16 had been applied since the commencement date, discounted using the lessee's incremental borrowing rate at the date of initial application – the Group applied this approach to its largest property leases; or
- b. an amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments – the Group applied this approach to all other lease.

**(Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)**

In addition, the Group used the following practical expedients when applying IFRS 16 to leases.

- a. Applied a single discount rate to a portfolio of leases with similar characteristics.
- b. Adjusted the right-of-use assets by the amount of IAS 37 onerous contract provision immediately before the date of initial application, as an alternative to an impairment review.
- c. Applied the exemption not to recognize right-of-use assets and liabilities for leases with less than 12 months of lease term.
- d. Excluded initial direct costs from measuring the right-of-use asset at the date of initial application.
- e. Used hindsight when determining the lease term if the contract contains options to extend or terminate the lease.

**B. Leases previously classified as finance leases**

For leases that were classified as finance leases under IAS 17, the carrying amount of the right-of-use asset and the lease liability at January 1, 2019 are determined at the carrying amount of the lease asset and lease liability under IAS 17 immediately before that date.

**3) As a lessor**

The Group is not required to make any adjustments on transition to IFRS 16 for leases in which it acts as a lessor, except for a sub-lease. The Group accounted for its leases in accordance with IFRS 16 from the date of initial application.

Under IFRS 16, the Group is required to assess the classification of a sub-lease by reference to the right-of-use asset, not the underlying asset. On transition, the Group reassessed the classification of a sub-lease contract previously classified as an operating lease under IAS 17. The Group concluded that the sub-lease is a finance lease under IFRS 16.

**4) Impacts on financial statements**

On transition to IFRS 16, the Group recognized additional \$2,151,333 of right-of-use assets and \$2,156,050 of lease liabilities, respectively, and recognized the difference in retained earnings. When measuring lease liabilities, the Group discounted lease payments using its incremental borrowing rate at January 1, 2019. The weighted-average rate applied is 2.56%.

**(Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)**

The explanation of differences between operating lease commitments disclosed at the end of the annual reporting period immediately preceding the date of initial application, and lease liabilities recognized in the statement of financial position at the date of initial application disclosed as follows:

	<b>January 1, 2019</b>
Operating lease commitment at December 31, 2018 as disclosed in the Group's consolidated financial statements	\$ 1,972,747
Recognition exemption for:	
short-term leases	(106,358)
Extension and termination options reasonably certain to be exercised	554,326
	2,420,715
Discounted using the incremental borrowing rate at January 1, 2019	2,156,050
Lease liabilities recognized at January 1, 2019	<b>\$ 2,156,050</b>

(b) The impact of IFRS endorsed by FSC but not yet effective

The following new standards, interpretations and amendments have been endorsed by the FSC and are effective for annual periods beginning on or after January 1, 2020, in accordance with Ruling No. 1080323028 issued by the FSC on July 29, 2019:

<b>New, Revised or Amended Standards and Interpretations</b>	<b>Effective date per IASB</b>
Amendments to IFRS 3 "Definition of a Business"	January 1, 2020
Amendments to IAS 1 and IAS 8 "Definition of Material"	January 1, 2020

The Group assesses that the adoption of the abovementioned standards would not have any material impact on its consolidated financial statements.

(c) The impact of IFRS issued by IASB but not yet endorsed by the FSC

As of the date, the following IFRSs that have been issued by the International Accounting Standards Board (IASB), but have yet to be endorsed by the FSC:

<b>New, Revised or Amended Standards and Interpretations</b>	<b>Effective date per IASB</b>
Amendments to IFRS 10 and IAS 28 "Sale or Contribution of Assets Between an Investor and Its Associate or Joint Venture"	Effective date to be determined by IASB
IFRS 17 "Insurance Contracts"	January 1, 2021

The Group is evaluating the impact of its initial adoption of the abovementioned standards or interpretations on its consolidated financial position and consolidated financial performance. The results thereof will be disclosed when the Group completes its evaluation.

**(4) Summary of significant accounting policies**

The following significant accounting policies have been adopted in preparing the consolidated financial statements and have been applied consistently to all periods presented in these consolidated financial statements, except when otherwise indicated.

**(a) Statement of compliance**

These consolidated financial statements have been prepared in accordance with the preparation and guidelines of IAS 34 “Interim Financial Reporting” which are endorsed and issued into effect by FSC and do not include all of the information required by the Regulations and International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations and SIC Interpretations endorsed and issued into effect by the FSC (hereinafter referred to IFRS endorsed by the FSC) for full annual consolidated financial statements.

Except the following accounting policies mentioned below, the significant accounting policies adopted in the consolidated financial statements are the same as those in the consolidated financial statement for the year ended December 31, 2018. For the related information, please refer to note 4 of the consolidated financial statements for the year ended December 31, 2018.

Note a: For purposes of trading and investment, the Group set up a number of special purpose entities (SPE) in which it does not have any direct or indirect shareholding.

These SPEs are consolidated if the substance of the Group's relationship with the SPEs and the assessment of their risks and rewards, disclosed that the Group has control over the SPEs. The control of an SPE by the Group may exist if:

- (i) the Group has power over the SPE;
- (ii) the Group has exposure, or rights, to variable returns from its involvement with the SPE;
- (iii) the Group has ability to use its power over to affect the amount of the SPE's returns.

Note b: The financial statements have not been reviewed.

2. List of subsidiaries which are not included in the consolidated financial statements: None.

(c) Leases (applicable from January 1, 2019)

1. Identifying a lease

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether:

- 1) The contract involves the use of an identified asset – this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified; and
- 2) The Group has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- 3) The Group has the right to direct the use of the asset. The Group has the right to direct the use of the asset when it has the decision-making rights that are most relevant to changing how and for what purpose the asset is used. In rare cases where the decision about how and for what purpose the asset is used is predetermined, the Group has the right to direct the use of an asset if either:
  - the Group has the right to operate the asset; or
  - the Group designed the asset in a way that predetermines how and for what purpose it will be used.

**Notes to Consolidated Financial Statements**

**June 30, 2019 and 2018**

**(Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)**

At inception or on reassessment of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices. However, for the leases of land and buildings in which it is a lessee, the Group has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

**2. As a lessee**

The Group recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be reliably determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- 1) Fixed payments;
- 2) Variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- 3) Amounts expected to be payable under a residual value guarantee; and
- 4) Payments for purchase or termination options that are reasonably certain to be exercised.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when:

- 1) There is a change in future lease payments arising from the change in an index or rate; or
- 2) There is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee; or
- 3) There is a change of its assessment on whether it will exercise a purchase, extension or termination option; or
- 4) There is any lease modifications.

**Notes to Consolidated Financial Statements**

**June 30, 2019 and 2018**

**(Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)**

When the lease liability is remeasured, other than lease modifications, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or in profit and loss if the carrying amount of the right-of-use asset has been reduced to zero.

When the lease liability is remeasured to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease, the Group accounts for the remeasurement of the lease liability by decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease, and recognize in profit or loss any gain or loss relating to the partial or full termination of the lease.

The Group presents right-of-use assets that do not meet the definition of investment and lease liabilities as a separate line item respectively in the statement of financial position.

The Group has elected not to recognize right-of-use assets and lease liabilities for short-term leases or less and leases of low-value assets. The Group recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

**3.As a lessor**

When the Group acts as a lessor, it determines at lease commencement whether each lease is a finance lease or an operating lease. To classify each lease, the Group makes an overall assessment of whether the lease transfers to the lessee substantially all of the risks and rewards of ownership incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then the lease is an operating lease. As part of this assessment, the Group considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

When the Group is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Group applies the exemption described above, then it classifies the sub-lease as an operating lease.

If an arrangement contains lease and non-lease components, the Group applies IFRS15 to allocate the consideration in the contract.

The lessor recognizes a finance lease receivable at an amount equal to its net investment in the lease. Initial direct costs, such as lessors to negotiate and arrange a lease, are included in the measurement of the net investment. The lessor recognizes the interest income over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease. The Group recognizes lease payments received under operating leases as income on a straight-line basis over the lease term as part of 'Rental revenue-operating leases'.

(d) Income taxes

The income tax expenses have been prepared and disclosed in accordance with paragraph B12 of International Financial Reporting Standards 34, Interim Reporting.

Income tax expenses for the period are best estimated by multiplying pre-tax income for the interim reporting period by the effective annual tax rate as forecasted by the management. This should be recognized fully as tax expense for the current period (and allocated to current and deferred taxes based on its proportionate size).

For a change in tax rate that is substantively enacted in an interim period, the effect of the change immediately should be recognized in the interim period in which the change occurs.

Temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and their respective tax bases shall be measured based on the tax rates that have been enacted or substantively enacted at the time of the asset or liability is recovered or settled, and be recognized directly in equity or other comprehensive income as tax expense.

(e) Employee benefits

The pension cost in the interim period was calculated and disclosed on a year-to-date basis by using the actuarially determined pension cost rate at the end of the prior fiscal year.

**(5) Significant accounting assumptions and judgments, and major sources of estimation uncertainty**

The preparation of the consolidated financial statements in conformity with the Regulations and IFRSs (in accordance with IAS 34 “Interim Financial Reporting” and endorsed by the FSC) requires management to make judgments, estimates and assumptions that affect the application of the accounting policies and the reported amount of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The preparation of the consolidated interim financial statements, estimates and underlying assumptions are reviewed on an ongoing basis which are in conformity with the consolidated financial statements for the year ended December 31, 2018. For the related information, please refer to Note (5) of the consolidated financial statements for the year ended December 31, 2018.

Accounting policies involve significant judgment and it has no material impact on the consolidated financial statement.

6. 2014 Securitization

In 2014, the Group securitized its financial assets, consisting of conditional sales receivable, installment sales receivable, and capital leases receivable, with an aggregate carrying amount of \$6,499,797. Such securitization was made by way of offering the securities in the form of beneficiary certificates, with the Land Bank of Taiwan as the Trustee. Accordingly, the Group received \$5,465,000 in cash from issuing these beneficiary certificates. Because the Group acquired all of the subordinated beneficiary certificates, the Group had control over the SPEs. The SPEs are classified as "Investments accounted under equity method". The downstream transactions are eliminated by the difference between the following two amounts.

- 1) The amount received from disposal of financial assets.
- 2) Adjusted book value of disposed financial assets.

The SPEs trusts are included in the consolidated financial statements and recognized as liabilities for issue amount.

These beneficiary certificates are redeemable for the period from July 24, 2014 to July 24, 2021. Specific terms and conditions of the beneficiary certificates are as follows:

Class of beneficiary certificates issued	Order of principal repayment	Issue amount /par value	Issue price	Interest rate	Payment frequency

As the process of its liquidation was completed on November 23, 2018, the Group received \$690,643 from the return of subordinated certificates. And, the special purpose entity has been dissolved, as a result the combination has been suspended.

On November 20, 2018, the company signed a contract for the purchase of debts with special purpose trust entity, and purchased the receivables from special purpose individuals for a total price of \$480,272.

**7. 2016 Securitization**

In 2016, the Group securitized its financial assets, consisting of conditional sales receivable, installment sales receivable, fund loaning and capital leases receivable, with an aggregate carrying amount of \$4,973,789. Such securitization was made by way of offering the securities in the form of beneficiary certificates, with the Land Bank of Taiwan as the Trustee. Accordingly, the Group received \$4,093,200 in cash from issuing these beneficiary certificates. Because the Group acquired all of the subordinated beneficiary certificates, the Group had control over the SPEs. The SPEs are classified as "Investments accounted under equity method". The Group's downstream transactions are eliminated by the difference between the following two amounts.

- 1) The amount received from disposal of financial assets.
- 2) Adjusted book value of disposed financial assets.

The SPEs trusts are included in the consolidated financial statements and recognized as liabilities for cash obtained from issuing these beneficiary certificates.

These beneficiary certificates are redeemable for the period from August 24, 2016 to August 24, 2023. Specific terms and conditions of the beneficiary certificates are as follows:

Recognition and reversal of impairment losses were charged to the cost of rental revenue.

For the impairment test of its leasing asset, management estimated the recoverable amount based on its value in use, which was determined by using the cost of capital 1.18%~5.82% and 1.15%~6.18% for the six months ended June 30, 2019 and 2018, respectively, to reflect the specific risk associated with its cash generating units.

Assets held for lease, which were partially pledged for the Group's long-term debts and short-term debts, were discussed further in Note (8).

1. Real estate leases

As of June 30, 2019, the Group leases land and buildings for its office and solar power station. The leases of office and solar power station typically run for two to twenty-eight years. Some leases include an option to renew the lease for an additional period of the same duration after the end of the contract term.

Some leases contain extension options exercisable by the Group up to one year before the end of the non-cancellable contract period. These leases are negotiated and monitored by local management, and accordingly, contain a wide range of different terms and conditions. The extension options held are exercisable only by the Group and not by the lessors. In which leasee is not reasonably certain to use an optional extended lease term, payments associated with the optional period are not included within lease liabilities.

1) Special reserve

In accordance with Permit No. 1010012865 as issued by the Financial Supervisory Commission on April 6, 2012, a special reserve equal to the debit balance of unrealized loss on financial instruments in the stockholders' equity, is appropriated from unappropriated retained earnings pursuant to Article No.41 of the Securities and Exchange Act. When appropriating a special reserve for the first time, it is initially appropriated from current earnings and any deficiency is appropriated from the undistributed earnings of prior years. For the second year and years thereafter, the increase or decrease in the balance of unrealized loss on financial instruments in subsequent year, as shown in the statement of changes in stockholders' equity, is either subject to further appropriation for special reserve, or reversed to retained earnings.

2) Earnings distribution

During the shareholders' meetings on May 24, 2019 and May 24, 2018, the shareholders resolved to distribute the 2018 and 2017 earnings. These earnings were appropriated as follows:

	2018		2017

(s) Employee and board of directors compensation

According to the Articles of Association, if there are surplus profits, the annual surplus profits shall be allocated in accordance with the following sequence and manner; however, if the Company has accumulated losses, such accumulated losses shall first be offset against the annual profits:

- a) Between 0.01% and 1% of the surplus profits before tax of each financial years as employees' compensation;
- b) Not to exceed 0.1% of the surplus profits before tax of each financial year as directors' compensation.

For the three months and the six months ended June 30, 2019 and 2018, the Company estimated its employees' remuneration amounting to \$607, \$541, \$1,144 and \$996, and directors' remuneration amounting to \$2,831, \$2,523, \$5,337 and \$4,647, respectively. These estimated amounts were calculated based on the net profit before tax, excluding the remuneration to employees and directors of each period, multiplied by the percentage of remuneration to employees and directors as specified in the Company's articles. These remunerations were expensed under operating costs or operating expenses during 2019 and 2018. The amounts, as stated in the consolidated financial statements, are identical to those of the actual distributions for 2019 and 2018.

For 2018 and 2017, the Company recognized employees' remuneration amounting to \$2,010 and \$1,450, and directors' remuneration amounting to \$12,562 and \$8,113, respectively. The amounts, as stated in the condensed interim consolidated financial statements, are identical to those of the actual distributions for 2018 and 2017. Related information would be available at the Market Observation Post System website.

2) Loans and receivables which were neither past due nor impaired

The credit quality of the portfolio classified as loans and receivables neither past due nor impaired is under the circumstances that borrowers are with good credit rate and have no overdue records.

3) Loans and receivables which were past due or monitored

Loans and receivables that were past due or monitored, includes loans and receivables with renegotiated terms. Loans with renegotiated terms are due to the borrower's deteriorating financial position and where the Group has made concessions that it would not otherwise consider. Such activities include extended payment arrangements, approved external debt management plans, deferring foreclosure, modification, loan rewrites and/or deferral of payments pending a change in circumstances.

When loans and receivables of contractual interest or principal payments are past due, the Group considers that impairment loss has not been incurred, because the level of collateral available exceeds the amounts owed to the Group, or the overdue repayments are considered temporary issues.

The following table sets forth the aging of loans and receivables past due:

	<u>2019.6.30</u>	<u>2018.12.31</u>	<u>2018.6.30</u>
Past due up to 30 days	\$ 798,247	403,535	782,061

	<u>\$ 4,110,252</u>	<u>2,923,216</u>	<u>3,523,371</u>

4) Impaired loans and receivables

Impaired loans and receivables are loans and receivables for which the Group determine that it will be unable to collect part of principal and interest due according to the contracted terms of the loans and receivables.

2) Sensitivity analysis

The Group's exposure to foreign currency risk arises from foreign currency exchange fluctuations on cash and cash equivalents, account receivables, and loans and borrowings. A 5% depreciation or appreciation of the TWD against the USD and CNY on balance sheet date would have decreased or increased the net profit after tax by \$18,249 and \$67,372, for the six months ended June 30, 2019 and 2018, respectively. The analysis is performed on the same basis for both years.

3) The foreign currency gain or loss on monetary items

Since the Group uses multiple functional currencies, the amounts for foreign currency gain or loss are consolidated for presentation. For the six months ended June 30, 2019 and 2018, the foreign currency gain, including realized and unrealized, amounted to \$10,535 and \$66,660, respectively.

**Notes to Consolidated Financial Statements**

**June 30, 2019 and 2018**

**(Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)**

The Group's sensitivity analysis in interest rates is based on the risk exposure to interest rates on the derivative and non-derivative financial instruments on the reporting date. For variable rate instruments, the sensitivity analysis assumes the variable rate liabilities are outstanding for the whole year on the reporting date. The Group's accounting and financial department reported that the increases or decreases in interest rates and the change in interest rate of 25 basis points has been determined as management's benchmark in assessing the reasonableness of the changes in the interest rates.

If the interest rate increases or decreases by 0.25%, the Group's profit will decrease or increase by \$188,334 and \$171,771 for the six months ended June 30, 2019 and 2018, respectively. This analysis assumes that all other variables remain constant.

5. Sensitivity analysis— equity price risk :

If the equity price changes, the impact to other comprehensive income, using the sensitivity analysis based on the same variables except for the price index for both period, will be as follows:

Equity price at reporting date	For the six months ended June 30,			
	2019		2018	
	After-tax other comprehensive income	After-tax profit (loss)	After-tax other comprehensive income	After-tax profit (loss)
Increase 7%	\$ 67,123	17,170	71,620	11,976
Decrease 7%	\$ (67,123)	(17,170)	(71,620)	(11,976)

6. Fair value information

1) The Categories and Fair Values of Financial Instruments

The fair value of financial assets and liabilities at fair value through profit or loss, derivative financial instruments used for hedging, and financial assets at fair value through other comprehensive income is measured on a recurring basis. The following are the carrying amount and the fair value of the Group's financial assets and financial liabilities (including fair value hierarchy information). However, for financial instruments not measured at fair value but whose carrying amount is estimated to be reasonably close to the fair value, and for equity investments that has no quoted prices in active markets and whose fair value cannot be reliably measured, disclosure of fair value information is not required:

2) Valuation Techniques for Financial Instruments not Measured at Fair Value

The Group's valuation techniques and assumptions used for financial instruments not measured at fair value are as follows:

A. Financial assets at amortized cost

If the quoted prices in active markets are available, the market price is established as the fair value. However, if quoted prices in active markets are not available, the estimated valuation or prices used by competitors are adopted.

B. Financial assets at amortized cost and financial liabilities measured at amortized cost

If there is quoted price generated by transactions, the recent transaction price and quoted price data is used as the basis for fair value measurement. However, if no quoted prices are available, the discounted cash flows are used to estimate fair values.

3) Valuation Techniques for Financial Instruments Measured at Fair Value

A. Non-derivative Financial Instruments

If quoted prices in active markets are available, the prices are established as fair values. For the Group's financial instruments that have no active markets, the fair values are determined as follows:

**Beneficiary Certificate that Has No Quoted Prices:** The discounted cash flow model is used to estimate fair values. The main assumption for the model is to discount expected future cash flows by using a discount rate that reflects the time value of money and risks.

**Equity Instrument that Has No Quoted Prices:** The net asset value method is used to estimate fair values. The main assumption for the model is to use the net asset value per share as the measuring basis.

B. Derivative Financial Instruments

Derivative financial instruments are measured by using common valuation models such as discounted cash flow model and Black-Scholes model.

4) Change in Level 3 of the fair value's ledger

**5) The Quantified Information for Significant Unobservable Inputs (Level 3) Used in Fair Value Measurement**

The Group’s financial instruments that use Level 3 inputs to measure fair values include fair value through other comprehensive income-equity investments and financial assets at fair value through profit or loss. Most of these financial instruments using Level 3 inputs to measure fair values have only one significant unobservable input.

Quantified information of significant unobservable inputs as follows:

<u>Item</u>	<u>Valuation Technique</u>	<u>Significant Non-observable Input</u>	<u>The Relationship between Significant Non-observable Input and Fair Value</u>
Financial assets at fair value through other comprehensive income - investments in debt instruments without active market	Net Asset Value Method	Net Asset Value	Not applicable
Financial assets at fair value through profit or loss without active market	Black-Scholes Model	Stock Return Volatility (4.40% on June 30, 2019)	The higher stock return volatility, the higher the fair value
"	Discounted Cash Flow Method	Discount Rate (1.05% on June 30, 2019)	The higher the discount rate, the lower the fair value

6) Fair value measurements in Level 3 - sensitivity analysis of reasonably possible alternative assumptions

For fair value measurements in Level 3, changing one or more of the assumptions to reflect reasonably possible alternative assumptions would have the following effects:

	<u>Input</u>	<u>Variation</u>	<u>Impact or Fair Value Change on Net income or loss</u>	
			<u>Favorable Change</u>	<u>Unfavorable Change</u>
<b>June 30, 2019</b>				
Financial asset at fair value through profit or loss				
Financial instruments without active market	Discount Rate	10%	\$ 125	(125)
	Stock Return Volatility	10%	-	-

The favorable and unfavorable effects represent the changes in fair value, and fair value is based on a variety of unobservable inputs calculated using a valuation technique. The analysis above only reflects the effects of changes in a single input, and it does not include the interrelationships with another input.

Note: The Group issued discount coupons for car rental services and opened a trust account with Sunny Bank in accordance with mandatory and prohibitory provisions of the standard contracts for coupons.

(9) Commitments and Contingencies

- (a) The Group entered into alliances with several commercial banks for which the banks will provide direct financing loans to the Group's corporate and individual customers. Should these corporate and individual customers default on their payments, the Group is required to assume their loan obligations and pay these loans on behalf of these customers. As of June 30, 2019, December 31, 2018, and June 30, 2018, the balance of unexpired payments from these alliance transactions amounted to \$8,085,486, \$7,898,635 and \$7,586,489, respectively.
- (b) The Group entered into several electricity procurement agreements with Taiwan Power Company and all of these agreements will expire on twenty years after the date the electricity generating sets are launched. Under these agreements, reselling to third parties of electric power from the renewable energy system is prohibited.
